Urban Plus Designer

Simple. Clean. Bold. Stylish.
The Urban Plus range of designer residential windows and doors delivers a contemporary take on traditional window styles offering a simple architectural aesthetic whilst providing strength, durability, efficiency and robust performance.

Designed to accept large double-glazed panels, the Urban Plus Designer range will deliver excellent outcomes in terms of thermal efficiency for your home. Strong frames and robust design features enable this stylish range to span large openings with bold panel sizes and seamless functionality. Dedicated hardware delivers smooth operation, which will stand the test of time.

Bring the great outdoors in with stunning alfresco openings, maximise views and ventilation with a wide range of window options and enjoy the benefits of natural light and uninterpreted views with the Urban Plus Designer range as part of your home or architectural project.

URBAN PLUS SLIDING WINDOW

The Urban Plus Sliding Window delivers contemporary styling alongside strength and performance, making it an ideal solution for high-end architectural applications.

The system features embedded top and bottoms rail, delivering a modern panoramic design with crisp sightlines. Integrated insect screening maintains the sleek aesthetic and neat appearance. Options to incorporate high performance insulated glass ensure excellent thermal performance outcomes whilst delivering an uninterrupted view of the outdoors.

KEY FEATURES

- Panoramic Head and Sill design to maximise your view
- Integrated insect and security screening options for a tidy aesthetic
- Two and three-track configurations
- 2 track: OX, XX, OXO, XOX, OXXO
- 3 track: OXX, XXX, OXXXXO
- AGS 300/325 and 400/425 Narrowline compatible for seamless integration
- High light and Low light combinations to suit contemporary building requirements
- Fully compatible with the stylish Caprio and Caprice hardware ranges.

URBAN PLUS DOUBLE HUNG WINDOW

The Urban Plus Double Hung Window features a substantial outer frame allowing for large configurations with a modern, architectural aesthetic.

Bold mitred sash profiles sit within a clean square cut frame, demonstrating the simplicity and style which are hallmarks of the Urban Plus range. High quality operating hardware and a simple sash release system for easy cleaning from within the building make the Urban Plus Double Hung Window the ideal choice for elevated applications. This system incorporates integrated finger pulls and high-quality latch hardware to further enhance the functionality of this modern take on a classic window style.

KEY FEATURES

- Height adjustable sash panels
- AGS 300/325 Narrowline compatible for seamless integration
- Compatible with the full range of Urban Plus window suites
- Integrated insect and security screening options
- Exclusively designed components to improve the system's performance and function
- Provision for High, Low and Side Lights
- Accepts double glazing up to 18mm.

URBAN PLUS SLIDING DOOR

The Urban Plus sliding door has been designed to span wide openings and maximise views. Available in sliding and multi-stack configurations, the Urban Plus Sliding Door offers the capability to span openings up to 12m wide and 2.7m high.

A number of performance sill options to suit standard and exposed locations provide great flexibility in the design of the system. Clean, bold lines are hallmarks of this design and can be complemented with the elegant aesthetics of Caprio or Caprice hardware to create a defining feature within the home.

KEY FEATURES

- Available as Standard or Multistack configurations with or without screen tracks
- XO, OXO, XXO, OXXO, OXXXXO
- Complementary hardware from the Caprio and Caprice ranges
- Single and Double glazing options
- Linear Grate drain solution available to provide a seamless indoor to outdoor flow
- Integrated screen tracks which easily accommodate Amplimesh security doors or flyscreen doors.

URBAN PLUS FOLDING WINDOW

The Urban Plus Folding Window delivers seamless operation, classic style and excellent flexibility for residential or commercial applications. Incorporating an innovative bottom rolling mechanism ensures that even double glazed panels glide effortlessly.

The Urban Plus Folding window can be installed in configurations incorporating glazed low lites, ideal for balconies or serveries, including cafes due to the systems open-in operation capability. Flush bolt rods and stainless steel hinges ensure durability and long-term performance.

A beautiful addition to your home or alfresco area.

KEY FEATURES

- Bottom rolling mechanism for long term smooth operation
- Accepts double glazing providing excellent energy efficiency
- Complementary hardware from the Caprio and Caprice range
- Can be installed with fixed low lites or high lites
- Incorporates Stainless Steel hinges, rollers and flush-bolts
- Available in open-in and open-out configurations.

capral.com.au

The Urban series is a standard range of energy efficient window and doors designed to inspire your living space.

Uncompromising in design, our Urban products are engineered with superior mechanisms and components for effortless, trouble-free operation.

All Urban windows and doors are designed to contribute to increased energy performance in your home.

Artisan Architectural products move and feel like no other, smooth and responsive. Featuring slim lines, various sill options and panel configurations, Artisan is a suitable option for both the high demands of commercial and residential applications. Artisan looks good in either a traditional or contemporary décor, making it the ideal choice for homeowners, builders, designers and architects alike.

The AGS Commercial range is designed to achieve the ultimate combination of architectural style and performance. Each door and window is engineered to withstand Australia's harsh conditions, even the extremes. In fact, they're recognised as some of the best performing windows and doors on the market. All tested for heavy use commercial and residential applications.

The Futureline thermally broken range of windows and doors is designed to deliver improved thermal performance for commercial and residential projects.

Designed to meet the demands of ever-increasing energy efficiency requirements, the Futureline range is versatile and stylish, delivering robust structural performance whilst achieving excellent energy efficiency outcomes.
